One module within a complete Municipal Management Suite

The Public Works Department is responsible for a wide range of maintenance and improvement projects throughout the municipality. The Department's Staff provides for the delivery of high quality, cost effective, efficient, safe services involving public infrastructure and facilities to enhance the quality of life in the municipality.

Service Requests and Road Openings can be logged into the system for tracking, management and reporting until their closure. Public Works Professional from SDL will allow you to keep track of man hours, equipment and materials in service requests and track Road Openings occurring throughout the municipality.
