

Pet Licensing Module

Software for the Licensing and Tracking of Pets within the Municipality

- Create mailing lists for renewal of pet licenses
- Use the mail-merge feature for generation of mailing labels to all pet owners
- Issue Pet Licenses and manage the process from start to finish
- Reporting and search tools enable you to find any pet or group of pets
- The location of any pet or group of pets can be displayed on your parcel map
- State VPH-10 report is included
- Rabies immunization tracking
- A database of all veterinarians and their contact information can be tracked and managed
- Integrated into your GIS
 - Licenses can now be linked to a parcel
 - All Pet data is now linked to tax information enabling reporting and spatial analysis
 - Integrated mapping tools are easy to use
- (Planned) Accepts License Applications via the web

One module within a complete Municipal Management Suite

This Module tracks all of the relevant data required for each pet that is licensed within your municipality. You can manage the licensing process and the state reporting process all within the software. By maintaining a catalog of all pets, municipal employees can access properties where pets reside with confidence, as they will know what licensed animals are on the premises.
