

SDL

MUNICIPAL
MANAGEMENT
SOFTWARE

SPATIAL DATA LOGIC

Municipal Management Software

Connected Government. Connected Citizens.

Why SDL

Spatial Data Logic's Municipal Management Software helps bridge the gap between municipalities and their constituents by providing visibility across departments, streamlining workflow for staff and enabling self-service access for residents.

Our software includes modules that span across many departments, business processes and functions and is accessible whether you are on-the-go or at your desk.

Our Strengths

LOCAL & EXPERIENCED

20+ years serving New Jersey municipalities

ALL-INCLUSIVE

Our software is comprised of mobile, desktop and hybrid cloud solutions that meet the needs of multiple departments

VISIBILITY

SDL modules work together to provide a comprehensive view of property history allowing staff to access information and collaborate across departments

EMPOWER RESIDENTS

Submit requests, search for information and track progress online

READY-TO-GO

Software is developed and can be deployed quickly

UNMATCHED CUSTOMER SERVICE

Knowledgeable staff handles any data conversion, software installation, training and on-going customer support needs

GIS BASED SOFTWARE

Create data layers, link information and add documents to GIS maps for a visual guide and complete property history

Serving 130+
New Jersey
municipalities

1 Million +
inspections
completed via
SDL Mobile

SDL Portal is a
time saver. "...75%
decrease in foot
traffic & calls"
