Land Use
Access information and take action on-the-go

Why SDL

Spatial Data Logic's Municipal Management Software has helped bridge the gap between municipalities and their constituents by providing visibility across departments and streamlining workflow for staff and enabling self-service access for residents.

SDL's Land Use Module is designed for Zoning, Planning and other development departments to help manage applications, track fees, archive paperwork and communicate between departments.

How We Help

MANAGE APPLICATIONS
Process and track the status of Planning Board, Zoning Board and Open Space applications

STREAMLINE TASKS
Review and check compliance of proposed structures, site plans and signs with ease

ZONING RESOURCES
Process zoning permits, inspections and violations for your local zoning ordinance

GO PAPERLESS
Digitally archive all paperwork. Ability to link documents to a parcel map

COLLABORATION
SDL modules work together to provide a comprehensive view of property history allowing staff to access information and collaborate across departments
