

SDL

MUNICIPAL
MANAGEMENT
SOFTWARE

SPATIAL DATA LOGIC

Code Enforcement

Ensure the safety and well-being of your residents

Why SDL

Spatial Data Logic's Municipal Management Software helps bridge the gap between municipalities and their constituents by providing visibility across departments, streamlining workflow for staff and enabling self-service access for residents.

Our Code Enforcement Module is designed to help staff address complaints, conduct inspections, issue violations and enforce code throughout the municipality whether you are in the field or at your desk.

How We Help

STREAMLINE TASKS

Process and view inspections, violations and complaints. Set reminders for reoccurring tasks. Issue violations and summons

FIELD ACCESSIBILITY

Access records, view GIS maps, reference codes, complete reports and submit pictures while onsite

GO PAPERLESS

Digital history of all inspection results, fines, complaints, photos and other property data

COLLABORATION

SDL modules work together to provide a comprehensive view of property history allowing staff to access information and collaborate across departments

EMPOWER RESIDENTS

Residents can submit permit applications, inspection requests and complaints online

ENSURE COMPLIANCE

Quickly access local ordinances and relevant codes
